Cinema and migration have a magical bond stretching back over a century when filmmakers, many of whom were immigrants themselves, began making movies that depicted a world on the move. Their films brought the dramatic, poignant and comical stories of migrants to diverse audiences, through images that provoked feeling amongst people of every culture. The Global Migration Film Festival, organized globally and simultaneously by the UN Migration Agency (IOM), features films and documentaries that capture the promise and challenges of migration and the unique contributions that migrants make to their new communities. Join us to pave the way for greater discussion around one of the greatest phenomenon of our time, running from 12-15 December 2018 in Turkey.
