Attention

As published on the German Embassy website in Turkey, IOM is supporting Germany's "Family Assistance Programme for Syrians" beginning June 2016. As part of the program, IOM will contact beneficiaries who are currently awaiting their German Family Reunification visa interview. Only those who have already an appointment with iData will be contacted by IOM. IOM will be providing information about the family reunification visa process, and will assist to ensure that the applications and documents are fully completed prior to the interview date.
